Maharishi Mahesh Yogi Vedic Vishwavidyalaya

[Recognised under UGC Act, Section 2 (f)]

महर्षि महेश योगी वैदिक विश्वविद्यालय वैदिक एवं आधुनिक ज्ञान का समन्वय

''सम्पूर्ण भारत में वैदिक ज्ञान को प्रचारित व प्रसारित करने के लिए तथा शिक्षा की मुख्य धारा में वैदिक ज्ञान का समावेश करने के लिये महर्षि महेश योगी वैदिक विश्वविद्यालय की स्थापना १९९५ में की गई है। इस विश्वविद्यालय का लक्ष्य सर्वसमर्थ चेतनावान् व्यक्ति, समस्याविहीन समाज, आदर्श भारत का निर्माण एवं वेद भूमि, पूर्ण भूमि, देव भूमि भारत के दिव्य जागरण में समस्त विश्व के लिए सुख शांति और अजेयता का मार्ग प्रशस्त करना है। विश्वविद्यालय का परम लक्ष्य है पूर्ण शाश्वत् ज्ञान के आधार पर भूतल पर स्वर्ग का निर्माण। ज्ञान एवं विज्ञान के प्रचार प्रसार के लिए विश्वविद्यालय का मुख्यालय भारत के भौगोलिक केन्द्र बिन्दु-ब्रह्मस्थान ग्राम-करौंदी में स्थापित किया गया है जहाँ हजारों वैदिक विद्यार्थी वैदिक विद्या का अध्ययन कर रहे हैं एवं विश्व के समस्त नागरिकों और राष्ट्रों की शांति, सुख और समृद्धि के लिए नित्य अनुष्ठान सम्पादित कर रहे हैं।

''महर्षि विश्वविद्यालय के प्रत्येक विद्यार्थी को पूर्ण ज्ञान प्रदान किया जाता है। किसी भी विद्यार्थी को पूर्ण ज्ञान की प्राप्ति के लिए कहीं बाहर भटकना नहीं पड़ता, क्रिया की सिद्धि के लिए तथा किसी इच्छा प्राप्ति के लिए विद्यार्थी को संघर्ष नहीं करना पड़ता और न ही समस्याओं का सामना करना पड़ता, विद्यार्थी अपनी आत्मा में ज्ञान का उदय एवम् अनुभव करके अपने जीवन को आदर्श बना ले यह विश्वविद्यालय का प्रमुख उद्देश्य है। विश्वविद्यालय के प्रत्येक विद्यार्थी को प्रकृति के नियमों में कुशलता प्राप्त करने के लिए तैयार किया जाता है जिससे उसका व्यावहारिक और व्यावसायिक जीवन हमेशा सफल रहे। इस विश्वविद्यालय के पाठ्यक्रम वैदिक तथा लोकिक दोनों दृष्टिकोणों से प्रमाणित हैं जिससे कि विद्यार्थी को लौकिक तथा परलौकिक दोनों क्षेत्रों में उपलब्धियाँ प्राप्त हो सकें और वह भारत ही नहीं वरन् विश्व परिवार का एक आदर्श नागरिक बन सके। भारत की वर्तमान शिक्षा प्रणाली पूर्ण शिक्षा प्रदान नहीं करती। महर्षि महेश योगी वैदिक विश्वविद्यालय की शिक्षा पद्धित को आत्मप्रधान शिक्षा पद्धित भी कहा जा सकता है।

"विश्वविद्यालय के प्रत्येक विद्यार्थी को आत्मा के अनुभवों से परिचय कराया जाता है। भावातीत ध्यान के अनेक प्रयोग, लाभ जो चेतना को जगाने के प्रयोगिक विधान हैं, विश्व भर के वैज्ञानिकों द्वारा प्रमाणित है इस विश्वविद्यालय के प्रत्येक विद्यार्थी को प्राप्त होते हैं। वर्तमान शिक्षा प्रणाली भारतीय ज्ञान पर आधारित शिक्षा प्रणाली नहीं हैं। महर्षि महेश योगी वैदिक विश्वविद्यालय द्वारा प्रदान की जाने वाली शिक्षा में आधिदैविक, आध्यात्मिक एवं आधिभौतिक तीनों तत्वों का समन्वय है।

''वास्तव में प्रत्येक व्यक्ति वेद की ही अभिव्यक्ति है, प्रयेक व्यक्ति वेद का ही प्रकट रूप है। चेतना में वेद के जागरण से ही विद्यार्थी का सार्वभौमिक विकास होता है। प्रत्येक व्यक्ति वह जैसा भी है, जो भी है, वेद ही है। वैदिक विश्वविद्यालय में प्रत्येक विद्यार्थी को उसके शरीर में वेद का दर्शन कराया जाता है। वैदिक विश्वविद्यालय का स्नातक वैदिक ज्ञान-विज्ञान से लेकर प्रकृति के नियमों का प्रयोग करने की कुशलता प्राप्त करके आवश्यकतानुसार सब कुछ कर सकने में समर्थ होता है। पूर्ण ज्ञान देने का विधान जो वैदिक विश्वविद्यालय में

शिक्षाक्रम (पाठ्यक्रम) के रूप में बनाया गया है, वह वैदिक और लौकिक दोनों दृष्टिकोणों से प्रमाणित है। महर्षि वैदिक विश्वविद्यालय की शिक्षा पद्धित महर्षि और वैदिक इन दोनों शब्दों के अर्थ से स्वयं प्रमाणित है''।

यह विचार महर्षि महेश योगी वैदिक विश्वविद्यालय के कुलाधिपति ब्रह्मचारी गिरीश जी ने **महामीडिया न्यूज सर्विसेस** से एक निजी साक्षत्कार में व्यक्त किये।

ब्रह्मचारी जी ने कहा कि ''अनेकानेक वैदिक वचनों से प्रतिपादित भवातीत ध्यान समस्त विश्व में लाखों-लाखों व्यक्तियों के जीवन में लाभदायक सिद्ध हुआ है। विश्व के सौ से भी अधिक देशों के सभी धर्मों, विश्वासों और पृष्ठभूमि के नागरिक इसका अभ्यास करते हैं। भावातीत ध्यान के अनेकानेक लाभ सैकड़ों वैज्ञानिक प्रयोगों द्वारा प्रमाणित हुए हैं। विज्ञान द्वारा प्रमाणित, महर्षि द्वारा इस युग में प्रकाशित, भावातीत ध्यान प्रत्येक व्यक्ति की चेतना में पूर्ण ज्ञान की जागृति करने का साधन बनाया गया है।

''महर्षि महेश योगी विश्वविद्यालय में जो व्यवसायिक विषयों का प्रशिक्षण होता है, उनमें भी वैदिक ज्ञान और ज्ञान की क्रियाशिक्तयों का जागरण कराते हुए व्यवसाय में कुशलता दी जाती है। कोई किसी भी व्यवसाय में कुशलता प्राप्त करने की शिक्षा लेना चाहे, उसकी शिक्षा ऐसी होनी चाहिए कि उसके कार्य में प्रकृति का सहयोग मिलता रहे और उसका व्यवसाय उसकी भौतिक आवश्यकताओं की पूर्ति करे साथ ही साथ स्वाभाविक रूप से उसका अधिदैविक और आध्यात्मिक विकास भी होता जाए। व्यवसायिक कुशलता के लिये ब्राह्मी चेतना का उदय करके पूर्णता की प्राप्ति का अधिकारी होना किसी भी व्यवसाय का प्रशिक्षण लेने वाले के लिए आवश्यक है। इस विश्वविद्यालय का विद्यार्थी न केवल ज्ञान के क्षेत्र में पारंगत होता है, अपितु क्रिया के क्षेत्र में भी पारंगत होता है, व्यवहार से कुशल होता है, वैदिक विश्वविद्यालय में ज्ञान की प्यास तृप्त होती है।

''शिक्षा की व्यवस्था ऐसी होनी चाहिए कि विद्यार्थी की विकासमान चेतना को पूर्ण जाग्रत कर दिया जाए, जिससे उसकी चेतना, उसका व्यवहार युवक होते-होते इतना प्रौढ़ हो जाये कि उसके लिए कोई भी कार्य कठिन न रह जाये और वह अपनी सभी उत्कर्षकारी इच्छाओं की पूर्ति कर सके। वर्तमान बढ़ती बेरोजगारी और कुंठित मानसिकता से ग्रस्त शिक्षित युवाओं की स्थिति सर्वविदित है, इसे यदि वर्तमान में प्रचलित पाश्चात्य शिक्षा पद्धित की देन कहा जाए तो कोई अतिश्योक्ति नहीं होगी।

''महर्षि वैदिक शिक्षा पद्धित का लक्ष्य है, जीवन के हर स्तर को शिक्षित करना, कोई व्यक्ति कभी किसी तरह की त्रृटि न कर सके उसे ऐसा प्रशिक्षित करना। उच्च शिक्षा का लक्ष्य है कि ज्ञान के उस ऊँचे शिखर पर बैठा देना जहाँ से सब कुछ दिख सके, सब कुछ अपने अधिकार में रहे, कोई भी कार्य सहजता से कर सकने की सामर्थ्य रहे-सहजम कर्म कौन्तेय। उच्च शिक्षा के ये उद्देश्य वैदिक विश्वविद्यालय में सब विद्यार्थियों को प्राप्त हों ऐसा विधान परम पूज्य महर्षि महेश योगी जी ने किया है। हजारों वर्षों के मानवीय इतिहास में ज्ञान के एक नये सूर्य का उदय हुआ है। दो-तीन सौ वर्षों से प्रारम्भ हुई भौतिक विज्ञान प्रधान शिक्षा को अनादि गुरू परम्परा प्राप्त शाश्वत् वैदिक शिक्षा पद्धित के पूर्ण ज्ञान के प्रकाश में लाकर महर्षि जी ने उसको ऐसी पूर्ण स्थिति प्रदान की है''।

महर्षि महेश योगी वैदिक विश्वविद्यालय मध्यप्रदेश विधान सभा के अधिनियम (अधिनियम क्रमांक 37, वर्ष 1995) द्वारा स्थापित विश्वविद्यालय है। यह विश्वविद्यालय विश्वविद्यालय अनुदान आयोग के अधिनियम की कंडिका २(एफ) के अंतर्गत सूचीबद्ध है। विश्वविद्यालय, भारतीय विश्वविद्यालय संघ का सदस्य भी है। परम पूज्य महर्षि महेश योगी जी इस विश्वविद्यालय के प्रथम कुलाधिपित थे, वर्तमान कुलाधिपित ब्रह्मचारी गिरीश जी विश्वविख्यात शिक्षाविद्, दक्ष प्रशासक, वैदिक ज्ञान के प्रकाण्ड विद्वान और एक सिद्ध साधक हैं। वे महर्षि प्रणीत चेतना पर

New Dimensions in Indian Education Policy Free and Compulsory Education (RTE) Act-2009

While Kapil Sibal promises that a revolution larger than the one in the telecom sector awaits the education sector, critics are sceptical. With too much happening too soon, there seems to be lack of clarity about the reforms

in place and proposals in the pipeline. Here is an attempt to decode them and examine their worth.

The Right of Children to Free and Compulsory Education Act

The Act makes it compulsory for state-funded schools to provide free education to every child between 6 and 14 years. "Since it is a fundamental right, in case a school refuses free education to a child, a parent or a child can approach the Supreme Court under Article 32 of the Constitution. It is also a statutory right, which allows parents

and children to approach their nearest taluka or district," says Ashok Agarwal, lawyer and president of All India Parents Association.

Also, the Act maintains that no child can be held back, expelled, or required to pass a board examination until one completes elementary education. In so far as infrastructure is concerned, it requires schools (where there is an issue) to improve within three years, or else the school will be de-recognised. It also calls for a fixed student-teacher ratio and allots 25% reservation for underprivileged students.

Examination Reforms

Taking a cue from the changes suggested in the National Curriculum Framework (NCF-2005), Sibal has introduced reforms, which include making the class X board exams optional, strengthening of comprehensive and continuous evaluation (CCE) system and introduction of the grading system. The Central Board of Secondary Education (CBSE) will make class X board exams optional, with effect from 2011.

This is meant for students studying in CBSE's senior secondary schools and those who do not wish to move out of the CBSE system even after their board exams. However, 'such' students who wish to move out of the CBSE system after class X will be required to take the board's external examination. Also, students studying in CBSE's

secondary schools will be required to take the board's external (written/online) examination because they will be leaving the secondary school after class X. However, CBSE will introduce an 'on demand' proficiency test for students who wish to assess themselves.

Continuous and Comprehensive Evaluation (CCE)

CBSE introduced CCE in primary classes in 2004. NCF's paper on examination reforms mentions that external examinations 'are largely inappropriate for the knowledge society of the 21st century and its need for innovative problem solvers.' It is important to look at the holistic assessment of a learner, which also includes co-scholastic areas of life skills, attitudes and values, sports and games as well as co-curricular activities. The scheme discourages mechanical testing and encourages use of tools and techniques for assessment in informal and formal settings. The scheme is applicable for the second term (October 2009-March 2010) of the current academic year in class IX. The academic year has been divided into two terms — from April-September (first term) and October-March (second term).

The National Commission for Higher Education and Research Bill, 2010

The bill is awaiting Cabinet approval. Once cleared, the central government will establish a National Commission for Higher Education and Research (NCHER). NCHER will work as a single regulatory body, which will determine, co-ordinate, maintain standards and promote higher education and research. Once NCHER comes into being, regulatory bodies such as UGC, NCTE and AICTE would be subsumed. Narendra Jadhav, member, Planning Commission, said, "Despite being a regulatory body, UGC happens to be giving out grants. This is a fundamental flaw. The same authority cannot give out grants as well as function as a regulatory body. The turf war exists within the councils that are part of the regulatory bodies. NCHER will try to achieve a synergy."

Unfair Practices in Technical, Medical Educational Institutions and Universities Bill, 2010

One of the five major bills awaiting Cabinet nod, it prohibits institutions from accepting fees or charges without issuing receipts and mandates them not to admit any student without conducting admission tests. It prohibits capitation fee (directly or indirectly) by the institution as well as the applicant. It also provides for refund of a certain percentage of the fee deposited, if one subsequently withdraws from the institution.

The bill also seeks to curb malpractices such as over-pricing of prospectus and barring advertisements by institutions, among other things. It has proposed imposition of civil and monetary penalties, which may extend up to Rs 50 lakh for violation of provisions to be enforced through State Education Tribunals, which are to be established under the bill.

The National Authority for Regulation in Accreditation of Higher Educational Institutions Bill

The task of the authority would be to accredit and rate all higher educational institutions in India. In accordance with the draft legislation, the national authority — along with multiple rating agencies — would develop and regulate the accreditation process. These multiple agencies would be registered with the national authority and the apex body would accredit and keep a check on the rating agencies. It would also keep an eye on fly-by-night operators. The bill would make it mandatory for all higher educational institutes and every programme of study to be accredited.

The Foreign Educational Institutions (Regulation of Entry and Operations, Maintenance of Quality and Prevention of Commercialisation) Bill

In a landmark decision, the foreign education bill got the Cabinet nod recently. It prescribes an eightmonth, time-bound format for granting approval to foreign educational institutions to set up campuses in India. As for the reservation policy in the higher educational institutions, the law of the land will prevail. The proposed law will facilitate overseas institutes to participate in the Indian education sector.

INVINCIBLE DEFENCE – BASICS

Maj. Gen. Dr. Kulwant Singh (retired.)

Minister of Invincible Defence-Maharishi Global Country of World Peace

Director General-Maharishi Invincible Defence Programme-India

Invincible defence, also called Vedic Defence, is based on the nourishing power of Natural law. It follows the Vedic Principles of Prevention and denounces the current destructive weapon oriented approach to defence. We know from the history of warfare that large armies and stockpile of weapons have not been able to stop war, terrorism and violence. Even the most powerful countries remain vulnerable; there is no way in the modern system of defence, which can guarantee total security and peace. The main reason of failure of current systems is its inability to recognize the root cause of violence, which as per Vedic thinking is the individual and collective stress prevalent in the human mind and society. Therefore, the solution lies in the Vedic Technology of peace and certainly not in the destructive weapons.

Military thinkers across the world are looking at the alternate means to end all types of conflict and violence; Vedic technology of invincible defence provides the answer.

Maharishi Ji has brought this ultra modern technology of Invincibility within reach of every one. The technology of Transcendental Meditation and its advance practice of TM-Sidhi and Yogic Flying, bring about the coherence in the collective consciousness by enlivening the Unified Field of Natural Law. What we need is 1% of population to practice TM twice daily or Square root of 1% of population to practice Yogic Flying together at one place. When these numbers are achieved the affected population will achieve invincibility, the scientists called this phenomenon the "Maharishi Effect" in honor of Maharishi Ji who first predicted it in 1957. There will be no enemies and the need of weapons and other destructive means will be declared obsolete – Invincible defence will prevail. This is not a wishful thinking but viable practical approach well experimented and tried out in many violent and war areas successfully. More than 600 scientific research studies, conducted at over 215 independent universities and research institutes in 35 countries stand as proof to the effectiveness of Vedic Peace technology.

European schools adopt Consciousness-Based Education for academic excellence and reduced social tensions

by Global Good News staff writer

Progressive schools around the world are offering a new kind of education, one which unfolds the students' full potential—reduced stress, total brain development, improved academic performance, and happiness—while simultaneously contributing to the welfare of their nations. <u>Consciousness-Based Education</u> is transforming the lives of students in a diverse range of cultural and socio-economic environments—from well-to-do private institutions, to indigenous communities, to tough inner city schools.

The successful programme includes the <u>Transcendental Meditation Technique</u>, and Dr Ashley Deans, Global Ambassador for Consciousness-Based Education, has traveled the world presenting the <u>scientific research</u> on the programme and <u>benefits</u> for schools, such as increased intelligence, comprehension, and creativity, and improvements in ADHD.

He recently toured Finland, Belgium, Luxembourg, Hamsa (Hungary), Kazakhstan, Uzbekistan, Kyrgyzstan, Turkey, Slovenia, Croatia, Serbia, Montenegro, Bosnia-Herzegovina, Macedonia, and Albania. In every country, he sees a rising interest in Consciousness-Based Education from administrators, teachers, parents, and students. In Macedonia, the president of a large university invited Dr Deans and representatives of the <u>Global Country of World Peace</u> (the organization which teaches the Transcendental Meditation Programme worldwide) to speak to 100 students and faculty. He is now inviting them back to talk to 1,000 students and has agreed to fund the first 100 students who begin the Transcendental Meditation Programme.

In Albania, a university dean organized a presentation by Dr Deans and leaders of the Global Country. The response was so positive he has invited them back to speak to 1,000 students.

A professor in Croatia organized a lecture at a teachers' college in Zagreb, and is now planning a major presentation to students in the fall.

Similar successes took place in other countries on his tour, says Dr Deans. He also sees a growing understanding of the importance of maintaining groups of students and faculty practicing Transcendental Meditation and the <u>Transcendental Meditation Sidhi Programme</u>, including <u>Yogic Flying</u>, to reduce social tensions and create permanent peace and <u>invincibility</u> for every nation.

A university president in Macedonia was so excited about the possibility of reducing social tension in the Balkans that he signed a letter of intent to introduce Consciousness-Based Education right away.

Maharishi Vedic Pandits: Creating peace from the level of peace, silence, absolute unified harmony

by Global Good News staff writer

<u>Maharishi Vedic Pandits</u> create a powerful influence of harmony, <u>coherence</u>, and invincibility through specific peace-creating performances, said Raja Harris Kaplan, <u>Raja</u> of Invincible India for the <u>Global Country of World Peace</u>. Raja Harris recently discussed how these Vedic performances 'have as their purpose to make peace peaceful, to make the possibility of peacefulness—which is after all our own nature—the manifest reality'.

The idea that peace can be achieved through talks and treaties has always been the 'great mistake' of all those who have desired for peace for the world, Raja Harris said.

'The fact is, as we all know, that peace can only be created on the level of peace,' he continued. 'You can't create light by pulling out darkness, you can only create peace from the level on which peace is already, or it will be ephemeral. There is a level of orderliness, there is a level of peace, there is a level of absolute unified harmony, which is within the nature of everything, which is the nature of everything.'

Specific Vedic performances by <u>Vedic Pandits</u> enliven the 'value of silence and peace . . . pure undifferentiated wholeness', Raja Harris said. One such performance is called *Rudrabhishek*.

Rudrabhishek is one of a number peace-creating performances which have been done for centuries, Raja Harris said, and one of the most important elements of <u>Maharishi Mahesh Yogi's</u> global programmes is his plan for large groups to perform *Rudrabhishek*all around India—to establish lasting peace, harmony, and <u>invincibility</u> for the world.

Switzerland: Maharishi Yoga course to be offered in Seelisberg

Fund established to help US military veterans become Teachers of the Transcendental Meditation Technique

by David Leffler, PhD

News on preventing an enemy from arising with <u>Invincible Defense Technology</u> (IDT)

A fund has been established to help US Veterans attend the Transcendental Meditation® (TM®) Teacher Training Course.

Today, US military-related personal are being diagnosed with high rates of stress-related problems like PTSD [Post Traumatic Stress Disorder]. According to an article published on *AllGov.com*, 'One military survey of about 100,000 veterans of the Afghanistan and Iraq wars showed that 31% had been diagnosed with mental health or psychosocial problems.' According to *The Chicago Tribune*, mental illness-related disability costs

since 2003 have soared 76%, 'burdening an already overwhelmed system and underscoring the reality that the biggest costs of war are not often immediate or visible.'

Our US [military personnel] could prevent or manage such problems by learning the <u>Transcendental Meditation</u> program, which stands alone as the most widely researched <u>stress-reducing</u> modality. Over <u>600 scientific research studies</u> have been conducted on the TM technique in more than 200 leading institutions and in over 30 countries. The positive results have been documented in numerous scientific peer-reviewed journals.

"Due to the stressful lifestyle of danger and hardship, military personnel have their own unique cultural norms, ways of thinking, and language. They even tell time differently," said Dr. David Leffler, a U.S. Air Force veteran. "Because military veterans have also served their country under such conditions, they interact easily with members of the armed forces. For this reason, veterans who understand the 'warrior mind-set' are well-suited to teach the TM technique [in the military]."

New research on Transcendental Meditation shows reduced depression without drugs

The M.U.M. Review: Maharishi University of Management, Iowa, USA

The Transcendental Meditation® technique may be an effective approach to reduce symptoms of depression, according to new research presented at the 31st Annual Meeting of the Society of Behavioral Medicine in Seattle, Washington, this past April by Sanford Nidich, <u>MUM</u> faculty member and senior researcher at the Institute for Natural Medicine and Prevention.

The studies, conducted at Charles Drew University in Los Angeles and the University of Hawaii in Kohala, included African Americans and native Hawaiians 55 years and older who were at risk for cardiovascular disease. Participants were randomly allocated to the Transcendental Meditation program or health education control group and were assessed with a standard test for depression—the Center for Epidemiological Studies-Depression inventory over 9-12 months.

"Clinically meaningful reductions in depressive symptoms were associated with practice of the <u>Transcendental Meditation</u> program," Dr. Nidich said. "The findings of these studies have important implications for improving mental health and reducing the risk of cardiovascular morbidity and mortality."

Conference participants appreciated seeing concrete sensory evidence of benefits from the technique. They could see brainwave coherence increase from 30 per cent to 85 per cent, less than a minute after a practitioner began the Transcendental Meditation Technique.
