Maharishi Ji's Message

It is very essential for every teacher of Maharishi Vidya Mandir to have the "Knowledge of Pure Consciousness". Knowledge is a subject of Consciousness. Like fertile land yields good crops, pure consciousness yields pure knowledge. Pure knowledge has infinite potential for activity and organising power. Purer the consciousness more is the potential for activity and organising power. Transcendental Meditation helps to achieve the state of purity in our consciousness. TM (Transcendental Meditation) is a very simple, effortless and natural technique, through which the 'mantra' gets finer and finer and ultimately reaches the transcendental stage, which is the state of pure consciousness. Purer the consciousness, more sacred it is, more 'Satoguni' it is.

We Have the proverb "Satyameva Jayate" "सत्यमेव जयते" this means "Truth always wins'. To win in life and to win in every activity of life, it is essential that we have more stable state of pure consciousness-more stable it is, more is the potential for infinite activity and to work from that state of consciousness is called "Yogasthah Kuru Karmani" "योगस्थः कुरुकर्मणि" as has been told by Lord Krishna in Bhagavat Gita. This means to work, being in the state of Yoga. TM is the technique through which we reach that state of yoga where there is an automatic and natural emergence of life supporting tendencies and depression & disappearance of life damaging (negative) tendencies. In Bhagavat Gita, in chapter 2, hymns 45 and a couple of hymns around it, deals greatly with Meditation. When meditation and pure knowledge stays together in our consciousness, it is the pure consciousness (Satoguni Consciousness). In the Indian tradition, Meditation is part of Vedic Science and we have to teach this science to all our students of Maharishi Vidya Mandir so that they achieve that level of consciousness where the knowledge is fully awake. The students who reach this stage will achieve complete personality and shall work in alliance with the laws of nature therefore shall never commit mistakes in life.

We have decided to open hundreds of schools in India because the education system in our country, due to foreign influence has lost its originality and purity and therefore our own knowledge has been overcast. We thought to reverse this process and are therefore opening school across the country to introduce "the unified field based system of ideal education", which has been scientifically proved and validated. This system primarily deals with education based on Vedic Principles.

You are the teachers of Maharishi Vidya Mandir. Never compare yourself with teachers of any other school. Never join the "Union of Teachers" in order to get material benefit. The day the teachers of our country started unionism, our education system took a deep plunge into the darkness of ignorance. You shall therefore never join this bandwagon even if it has the support of the state law.

The main purpose of opening schools is to develop purity in the consciousness of the students. In the curriculum, study of Sanskrit is compulsory because Sanskrit language is for Sanskriti. To Sanskrit means to Purify. To purify the knowledge in the consciousness which has been overcast. To make it pure knowledge, study of Sanskrit language is absolutely essential. Sanskrit is the language of Ved and Ved is the eternal truth. Pure knowledge and the root of all creation, Sanskrit is absolutely essential to gain an access to the Vedic wisdom. We shall make available to you the books on Vedic Science very soon and through this, you shall understand the principles of this eternal science. You shall also come to know why it is necessary for you and your students to practice TM.

The teachers of Maharishi Vidya Mandir should feel proud of being Indian and they should actually adopt the Indianness in their life. When the teachers actually have adopted this is totality in their life, they should teach their students to do so. If one has to teach English, it is not necessary to teach it wearing trouser, it can also be taught gracefully wearing Dhoti-Kurta –Topi. Concentrate on the language not on dress.

If you are an English teacher, teach epics like Ramayan, Mahabharat and Bhagavat Gita – concentrate only on language and always remember that you should bring about the Indianness – Indian system and culture through the English language. Every teacher should deeply study the Ramayan, Mahabharat & Bhagavat Gita since these are the epics, which help one develop a satoguni consciousness. When the teachers develop satoguni consciousness in themselves, they are able to develop this in the life of the students also. Your professional etiquette should be that satoguni consciousness is always sustained in your life and it should be so stable that it reflects from your dress, thought, speech, behaviour and action. The teachers of Maharishi Vidya Mandir should feel like ‘Gems’ amongst others.

When you meet teachers of other schools, teach them about Vedic Science, its importance and relevance. Tell them about TM and its infinite benefit for the mankind. You all should regularly practice TM to reach the stage where the Rishi – Devata – Chhandas will stay united in your consciousness.

The teachers of Maharishi Vidya Mandir should feel that they are the makers of complete man (Purna Purush Nirmata) and therefore they must develop the purity in their consciousness because only then they can develop the same for their students.

Unified Field

The knowledge of the unified field has been discovered by modern science during just the last few years, but the complete knowledge of the unified field has always been available in the Vedic literature. Today quantum physics is peeping into the details of the unified field and is locating its three-in-one structure. This is precisely the three-in-one structure of the self-referral state of consciousness. This awareness is open to itself and therefore the awareness knows itself. Because the awareness knows itself it is the knower, it is the known, and it is the process of knowing. This is the state of pure intelligence, wide-awake in its own nature and completely self-referral. This is pure consciousness or transcendental consciousness.

Unified Field Based Education

Maharishi’s Unified Based Education includes three components that systematically enliven the unified field of all the laws of nature in the awareness of the student. At Maharishi Schools, students will practice the Transcendental Meditation technique, through which they directly experience the unified field in their own simplest state of awareness. Then, for one period each day, they will study the principles of Maharishi’s Science of Creative Intelligence (SCI). SCI is the new integrated science that links modern science with Maharishi’s Vedic Science – it therefore brings out the complete knowledge of consciousness and its relationship to all modern field of knowledge. Finally, Unified Field Based Education includes teaching methods that connect the knowledge of each academic subject to the unified field of natural law – the field of pure consciousness.

By employing these three Components of Unified Field Based Education every day, Maharishi School will be successful in promoting holistic student development.

RECIPROCAL INFLUENCE OF INDIVIDUAL CONSCIOUSNESS ON COLLECTIVE CONSCIOUSNESS

Maj. Gen. Dr. Kulwant Singh (Retd.)
Minister of Invincible Defence-Maharishi Global Country of World Peace
Director General-Maharishi Invincible Defence Programme-India

Every garden has its own fragrance, which depends on the type and number of flowers in the garden. Similarly, every society has its own consciousness, which depends upon the individual consciousness of each member of the society. Thus the collective consciousness of a society is directly proportionate to the Consciousness of each member of the society. We know that coherent collective consciousness is the key to the peace and tranquility in any society, as substantiated by the numerous studies and experiments, many summarized in the six volumes of ‘Scientific Research on Maharishi’s Transcendental Meditation and TM-Sidhi Programme’. As the collective consciousness depends on the individual consciousness, therefore, it is the individual who is ultimately responsible for peace and all round progress of at all levels – society, nation or even world. We may conclude that individual consciousness is the basic unit of collective consciousness.

With the above background, we are ready to examine what can an individual do, and how exactly can he reinforce individual and collective consciousness of society. The answer lies in individual himself reaching a higher state of consciousness so that he can radiate coherence to influence others. Maharishi Ji’s Technology of TM and TM-Sidhi Programme, including Yogic Flying are very powerful practices, which positively influence the consciousness of the practicing individual, and if practiced in a group, a power effect is create in the surroundings raising the collective level of coherence. If the strength of group is big, the coherence can spread to large areas as demonstrated by Maharishi Ji many times over. While at this level, individuals generate a very strong influence of collective consciousness as they themselves rise to higher state of consciousness and experience great support of the Natural law. In Nutshell, it means – a few individuals, when they experience more coherence within their own consciousness, they radiate increased coherence into the collective consciousness of the society. Thus, it is abundantly clear that those individuals practicing Maharishi Technology of TM can effectively influence and contribute to the collective consciousness of the society with all its benefits.

The relation between individual and collective consciousness can be compared with the example of Coherent Laser. The laser demonstrates how a Field Effect gives rise to a phase transition from disorderliness to high coherence; individual atoms enliven the electrometric field (field of light) and the electromagnetic field then reacts on the individual atoms. Collective consciousness arises in the same way, from the individual members to the society practicing Maharishi Technology of Unified Field (TM) and then it has the reciprocal influence on the same individuals, and determines the character of the society modifying peoples thought and behavior.

Maharishi Ji explains it further by stating that there is a strong bond that exists between individual and collective consciousness. As individual consciousness grows, collective consciousness rises, and as

collective consciousness rises, individual consciousness grows. Individual consciousness is the basic unit of all level of consciousness –family, community, nation and world consciousness –influencing them and being in turn influenced by them. This reciprocal relationship between individual and collective consciousness has made it possible to ensure invincibility at all levels. A few enlighten individuals practicing TM Technique produce powerful effect of orderliness on the collective consciousness of any group. In hundred of cities, through out the world, where one percent or more practiced TM Technique, there has been decrease in crime rate, sickness, accidents and growth in the positive value of life.

As proved by physics, a small number of coherent individual particles in a system can make other non-coherent to behave in an orderly manner, due to the fact that physics prefers orderliness than disorder. Similarly, a critical number of individuals - one percent or square root of one percent practicing advance practice, can stimulate the under lying field of our consciousness through Maharishi Technology of Unified Field, a type of microscopic field effect of coherence would occur in the society and the quality of life will improve. This will bring in orderly and harmonious individual behavior, ensuring more positivity and improvement in the quality of life. This is the basis of “Maharishi Effect”, field-tested many times over.

There is no better way to sum up this write up than to quote Maharishi Ji -"The real governor of the nation is its collective consciousness. National consciousness is the sum total of individual consciousness, so national consciousness can be easily handled form the subtle quiet holistic value of individual's consciousness".

JAI GURU DEV

वेदोऽहम्
Vedoham
I am the Veda

(Devi Upanisad,1)

Understanding the Verse:

We understand from Maharishi Ji that the Veda is the home of all the laws of nature and that this home is deep within our own Self. From their knowledge of Maharishi's Ved Lila, the children can understand that this is the same as the one unbounded ocean of consciousness. The ocean of consciousness moves in waves creating the entire universe. As young students of Maharishi's Vedic Science and Technology, the children feel an intimate connection to the universal laws of nature, the waves on the ocean of consciousness, that are at the basis of all growth and progress in their own lives, in nature, and in the world around them. This experience of the children beautifully illustrates the SCI Principle *The Field of All Possibilities Is the Source of All Solutions*. In their discovery of the inner, more precious values of life that give rise to all of life's outer expressions, the children grow in appreciation of Maharishi's SCI Principle *Outer Depends Inner*. At a tender age, they are beginning to know the Ved and to live it. This is the fruit of Maharishi's Vedic Science for the young children, and the foundation of Heaven on Earth.

योगस्थः कुरु कर्माणि
Yogasthah kuru karmani
Established in Yog perform actions.

(Bhagavad-Gita 2.48)

Understanding the Verse:

This beautiful verse from the *Bhagavad-Gita* gives the children the precious key to living perfection in life, which Maharishi Ji describes as the ability to know anything, do anything, and accomplish anything. The children can understand that through their daily practice of Maharishi's Transcendental Meditation programme they are on the path to living this ideal state of life. Their increasing success in action is based on their regular experience of the silence deep inside them, the infinite reservoir of creativity and intelligence, the ocean of consciousness. Maharishi Ji explained that daily contact with the home of all the laws of nature enlivens all the evolutionary qualities of the unified field in everything that they think, say, and do. This verse makes it clear that it is the Self-non-changing and eternal-that is the unshakeable foundation of the children's own growth and progress. When they have regular contact with the field of all possibilities then all possibilities become a reality in their lives.

निवर्तध्वम् ।

Nivartadhvam
Transcend

(Rig- Ved, 10.19.1)

Understanding the Verse:

The transcendent expresses the fullest value of each fundamental. In the most settled state of our own awareness, which we experience through Maharishi's Transcendental Meditation programme, the self-interacting dynamics of consciousness give rise to all the qualities and characteristics of creative intelligence. When we transcend, we are experiencing the unified field of natural law, which is the source of all the SCI Fundamentals of Growth. For example, transcending brings the mind to the home of all the laws of nature, which is the field of infinite *creativity, energy and intelligence*. The children can appreciate the great fortune they have in their TM programme, which allows them to easily experience transcendental consciousness. For the first time in history, the regular experience of transcending and thus developing consciousness to live enlightenment is available to the whole world. This opens our vision to a heavenly future for all of mankind.

तत्सन्निधौवैरत्यागः ।

Tatsannidhau vairatyagah

In the vicinity of coherence, hostile tendencies are eliminated.

(Yog Sutras, 2.35)

Understanding the Verse:

The children can understand that invincibility in the collective consciousness of the nation is brought about through the large groups practicing Maharishi's Transcendental Meditation and TM-Sidhi Programme. This is how the children's parents are creating an invincible and glorious world through their daily practice of the TM and TM-Sidhi programme (for example, in the Golden Domes of Pure Knowledge at MIU), and thus are fulfilling this beautiful expression from the Yoga Sutras. The children will also recognize that their own collective practice of the TM programme in school produces a coherent influence in their classrooms, thus creating harmony between students, and a smooth, loving flow of knowledge from teacher to student. The same influence is felt in the homes of meditating families. This influence of coherence spreads to the whole environment.

This verse is a wonderful way to introduce the children to the concept of invincibility. Maharishi Ji explains that an invincible nation has an integrated, self-sufficient quality of collective consciousness. The nation is coherent (orderly) and harmonious. When all nations are coherent, we will have an integrated world family in which every nation flourishes in its full dignity, and together all nations live in perfect harmony and peace. This is Heaven on Earth.

पण्डित हरिशरण मिश्र, (ज्योतिषाचार्य)

जून माह ज्येष्ठ कृष्ण पक्ष अमावस्या दिन बुधवार से प्रारम्भ होकर आषाढ कृष्ण पक्ष अमावस्या दिन शुक्रवार पर्यन्त तक रहेगा। इस माह में पड़ने वाले प्रमुख पर्व एवं त्यौहार इस प्रकार हैं—

1. वट सावित्री व्रत या वड़ अमावस्या — यह व्रत प्रायः ज्येष्ठ कृष्ण अमावस्या को किया जाता है। यह सौभाग्यवती स्त्रियों का प्रमुख पर्व है। इस दिन वट वृक्ष की पूजा की जाती है। स्त्रियां प्रातः काल जल, मौली, रोली, चावल, धूप, दीप इत्यादि के साथ वट वृक्ष के नीचे जाकर सत्यवान एवं सावित्री की प्रतिमा बनाकर स्थापित करती हैं। उस प्रतिमा सहित वट की पूजा करके फिर वट के चारों ओर कच्चे सूत का धागा लपेटा जाता है। प्रसाद में, भीगे चने तथा गुड़ अथवा मिठाई का वायना निकाला जाता है। कहीं-कहीं यह त्यौहार ज्येष्ठ कृष्ण पक्ष त्रयोदशी से अमावस्या तक मनाया जाता है। यह व्रत स्त्रियों द्वारा अखण्ड सौभाग्यवती रहने की कामना के लिये किया जाता है। पूजन के बाद वट वृक्ष की सात परिक्रमा भी करनी चाहिये। यदि आस-पास वट का वृक्ष उपलब्ध न हो तो निराश नहीं होना चाहिये, वट वृक्ष की एक डाल मंगाकर उसे गमले में लगा कर उसी की पूजा कर लेनी चाहिये तथा उसके बाद सत्यवान सावित्री की कथा सुननी चाहिये।

2. श्री गंगा दशहरा गंगावतरण — ज्येष्ठ शुक्ल पक्ष की दशमी तिथि को हस्त नक्षत्र में स्वर्ग से श्री गंगा जी का आगमन पृथ्वी पर हुआ था अवएव इस दिन गंगा स्नान, अन्न वस्त्रादि का दान, जप-तप, उपासना और उपवास किया जाय तो दस प्रकार के पापों का क्षय होता है। इसी लिये इसे दशहरा भी कहते हैं। इस प्रकार के पाप में तीन प्रकार के कायिक, चार प्रकार के वाचिक और तीन प्रकार के मानसिक पाप कहे गये हैं।

इस दिन श्री गंगा जी की पूजा की जाती है, तथा गंगा स्त्रोत्र का पाठ करके गंगा आरती करनी चाहिये। फिर यदि सम्भव होतो 10 किलो तिल, 10 किलो जौ और 10 किलो गेहूँ का दान दस ब्राह्मणों को करना चाहिये।

3. निर्जला एकादशी (भीमसेनी एकादशी) — यह व्रत ज्येष्ठ शुक्ल एकादशी को किया जाता है, इसका नाम निर्जला है, अतः नाम के अनुसार बिना जल के इस व्रत को निर्जला किया जाये तो स्वर्गादिक लोक के अलावा आयु आरोग्यादि वृद्धि के तत्त्व व्यक्ति के शरीर में विशेष रूप से विकसित होते हैं। वेद व्यास जी के कथनानुसार यह अवश्य सत्य है कि जो व्यक्ति दृढतापूर्वक नियम-पालन के साथ निर्जल उपवास करके अगले दिन सामर्थ्यानुसार दान दक्षिणा ब्राह्मणों को देकर व्रत का पारण करे, तो सम्पूर्ण तीर्थों में जाकर स्नान-दानादि करने के समान ही फल होता है।

4. ज्येष्ठ पूर्णिमा खग्रास चन्द्र ग्रहण— ज्येष्ठ शुक्ल पूर्णिमा दिन बुधवार को लगने वाला खग्रास चन्द्र ग्रहण दक्षिणी अमेरिका, अफ्रीका, यूरोप, मध्य पूर्व एशिया, आस्ट्रेलिया और अन्टार्कटिका में दिखाई देगा। भारतीय मानक समयानुसार ग्रहण का प्रारम्भ रात्रि 11 बजकर 53 मिनट पर, ग्रहण का मध्य रात्रि 01 बजकर 43 मिनट पर तथा मोक्ष रात्रि 03 बजकर 33 मिनट पर होगा। यह ग्रहण सम्पूर्ण भारत

में दृश्य होगा। खग्रास चन्द्र ग्रहण की अवधि 3 घण्टा 40 मिनट है।

ग्रहण सूतक— धर्मशास्त्रों के अनुसार चन्द्रग्रहण में ग्रहण से पूर्व 09 घण्टे पहले सूतक लग जाता है। इसमें बालक, वृद्ध और रोगी को छोड़कर अन्य लोगों के लिये भोजन निषेध है। ग्रहण के पूर्व, मध्य तथा अन्त में स्नान करना चाहिये। ग्रहण काल में भगवत् नाम संकीर्तन, जप यज्ञादि कृत्य श्रेयस्कर होता है, किन्तु देव प्रतिमा का स्पर्श निषेध है। ग्रहण के बाद एवं पूर्व, मध्य में गंगादि पुण्य नदियों में स्नान से विशेष पुण्य फल प्राप्त होता है। किन्तु यदि सम्भव न हो तो घर पर भी स्नान करना चाहिये। इस माह (जून) में पड़ने वाले व्रत पर्व एवं त्यौहारों की तालिका इस प्रकार है—
